

FEATURES AND SPECIFICATIONS

- Converts specific Dragon Drop-IR code into X10 control signals
- IR signal & power inputs - plug-in screw-type terminals for four-conductor connections handles wire sizes from 24 to 12 gauge
- Opto-coupled IR IN and separate IR Gnd permits IR input to be isolated from chassis and power supply grounds, where needed
- IR IN accepts Xantech IR bus output from any of the Xantech IR receivers, keypads, connecting blocks, controllers, etc.
- X10 output jack – RJ11 modular connector
- RJ11-to-RJ11 cable included
- Power requirements – 12 VDC \pm 1.5V @ 25mA
- Mounting – flanges, plus supplied screws permit easy mounting to flat surfaces
- Dimensions – 4-3/8" L x 1-7/8" W x 1-1/8" H (111mm x 48mm x 29mm)
