Xantech Announces Business Alliance with McCoy Components

McCoy Components of Singapore will serve as a Master Distributor to Xantech's emerging Asian market.

Sylmar, Calif. – May 21, 2008 – Xantech Corporation, a leading producer of innovative and reliable custom installation products, announces its recent business alliance with McCoy Components. McCoy, based in Singapore, will be Xantech's master distributor for Asia, Australia, New Zealand, and the Middle East, offering same-day delivery of products to these locations.

"McCoy is a reliable and dedicated partner that will support and help the expansion of Xantech as a world class company," states Claude Sabourin, Director of International Sales for Xantech.

McCoy Components is a privately owned semiconductor distributor that services the original equipment manufacturing (OEM) and electronics manufacturing service (EMS) sectors. McCoy builds its business by offering real value to its customers and creating demand using suppliers' components rather than simply fulfilling orders. A strong competitor in the industry, on May 21, 2008 McCoy was named the winner of the Emerging Enterprise 2008 award. To win this novel entrepreneurship award, presented by The Business Times and OCBC Bank, McCoy and other applicants were judged in five main categories: mission statement, milestones and challenges, management team, business model, and business structure.

In Brief: Release Summary

- Xantech and McCoy Components partnered to serve Asia, Australia, New Zealand, and the Middle East.
- McCoy will be a logistic hub, making same-day delivery to these locations possible.
- McCoy, recently named Emerging Enterprise 2008, is a semiconductor distributor based in Singapore.

About Xantech Corporation

Established in 1969, Xantech Corporation (www.xantech.com) designs and manufactures an extensive range of state of the art A/V distribution and control systems, and component products, many of which have become the de facto industry standards. Since 1969, over two million of these systems have been installed worldwide.

The Xantech product line includes LCD Touchpanel Controllers, multi-zone, multi-source audio/video systems, multi-zone, multi-source pre-amplifiers, multi-channel audio amplifiers, infrared receivers, remote control switchers, interface modules, IR connecting blocks, IR emitters, volume controls and IR accessories. Products are sold to professional installers and distributors directly from Xantech.

Xantech's products are marketed in North and South America, Australia, New Zealand, Asia and Europe. Xantech is a subsidiary of Nortek, Inc. (www.nortek-inc.com), a multinational manufacturer and distributor of building products for residential and commercial markets. Nortek, established in 1967, is headquartered in Providence, Rhode Island.
